HORRIBLE DEATH.

Cremation of an Aged Man Near Louisa.

Dan Allison, Well Known in Lawrence County, Meets Death in a Burning Building.

This entire community was profoundly shocked on Tuesday morning last when it was learned that Dan Allison, an old citizen and well known character of this county, had been cremated alive the preceding night in his humble home not far from this city. Somewhere between nine and ten o'clock parties living in the vicinity had their attention attracted by a bright light of the Allison house, and some of them hurried to the spot. Among them was a Mr. Ward, who lives at the old Nisellus Wellman place, only a few hundred yards from the scene of the catastrophe. He was the first to arrive, and the scene which met his gaze was a horrible one. The house, a single story log building, was a mass of flame, the inside a seething furnace. Both doors were open, and on his bed could be seen, through rifts in the smoke and flame, the already half burned body of the unfortunate man. Other neighbors had arrived, among them being Sheriff James Clayton and Walt Clayton, nephews of Allison, W. J. Vaughan, John Burgett and possibly others. They could not possibly render any assistance whatever, and in a short time the building was reduced to ashes. As soon as possible the charred bones of the lone inmate were taken from the ruins and properly cared for. Late on Tuesday afternoon they were buried in the old Allison burying ground, not far from the spot where the old man met his death.

The origin of the fire which had such a horrible result, is not altogether plain, and more than one theory as to its cause has been advanced. One very strongly hinted at arson, committed in order to conceal the worse crime of murder. Heavily, this theory had some plausibility. Most everybody who knew Dan Allison believed that he had money. He was a man of frugal habits spending only for the bare necessities of life. He was unmarried, lived entirely alone, and had been often seen with small sums. Under these circumstances it was only reasonable to suppose that he had considerable savings. Those who knew him intimately, however, knew that he had but little of which he could be robbed. The fear on part of his relatives that some villain, tempted by the belief that old Dan had accumulated a large amount of money, would some time kill and rob him, caused them to bring him to a house close to them and where they could look after his welfare. This was not far from James Clayton's residence, on the old Little Blaine road, some two miles southwest of Louisa. Allison was living in this house when it was burned. The interior was piled up with sticks and light wood and other combustible material. The old man was not well during the preceding day or so, and it is supposed that he had built a fire during the early evening and had gone to bed, leaving the fire, and had gone to sleep. The fire in some way was communicated to the rubbish in the room and the solitary inmate was suffocated before the flames reached his bed. A small amount of silver coin was found on the blackened remains, and this, with some other facts, confutes the theory of murder and arson.

Dan Allison was 70 years old and was the last surviving son of J. H. and Mary J. Allison. Two sisters survive him, Mrs. L. H. York and Mrs. Felt O'Bryant, of Fort Gay. He was a man of marked eccentricities, living the life of a recluse or hermit. He had a most remarkable memory of people and events, and was quiet and inoffensive. The funeral service, the last earthly service for the man, was conducted by the Rev. H. B. Hulet, of the M. E. church, South.

The Bridge Suit Compromised.

The suit of Sam J. Crum against the Louisa and Fort Gay Bridge Company, in Wayne Circuit Court, was compromised last Monday by each side paying its own costs and Crum was given \$85 to cover certain other expenses. Crum also agreed to drop the prosecution of all such claims in the future.

This was a suit for alleged damages to the river bank, charged by plaintiff to the bridge piers, which stand in the edge of the river a few hundred feet above his property.

The case was tried once and the jury disagreed. The second time the trial was stopped on account of a change in the plaintiff's plea.

No News of George Pratt.

If the sea had swallowed him George Pratt, who disappeared from Williamson, W. Va., more than three weeks ago, could not have more completely gone from human sight. He said good by to some friends at Williamson on the 27th of last month, and that, so far as any of his relatives are concerned, was the last of him. Every possible means for ascertaining his fate has been used, but it is still a mystery.

SUICIDE OF A BRIDE.

Mrs. Harrison White Ends Her Life Three Weeks After Marriage.

The Chadwick Creek community is all agog over a suicide which took place at the home of Albert Barram, at the head of that stream near the midnight hour Wednesday night. The victim of the tragedy was Mrs. Harrison White, a bride of just three weeks and so far as known at present no motive for her rash act has been discovered. She ended her life by shooting herself through the heart with a 44 calibre Colt revolver.

The husband avers that the people about the house had all retired for the night, Mr. and Mrs. Barram sleeping in an adjacent room to that occupied by himself and Mrs. White. He stated that he had himself gone to sleep, and he thought he had been sleeping about an hour when he was suddenly awakened by the pistol's report, to find his wife lying at his side writhing in her last death throes. She died instantly and never spoke a word after she fired the shot, or, if she did, he did not hear her. White said that was all he knew about the case, except that since the occurrence, the flartrams and himself recalled the fact that Wednesday afternoon Mrs. White had taken a bath and dressed entirely in fresh wearing apparel, and it is now recalled that she spent considerable time in self adornment, but nothing was thought of it at the time.

Mrs. White was 23 years of age and had been married twice, her marriage to White having taken place just three weeks ago. Her maiden name was Alice Childers, being the daughter of the widow Childers, who now resides in South Catlettsburg. She was married when quite young to Lewis Howell. She had been separated from Howell about two years, having secured a divorce from him about one year ago.

Mr. White, in speaking of the matter of a possible motive for the suicide, said that it might have been that she wanted her children with her, and the Howells objected to her having them, but he said he had no assurance that this was the case. He said there had been absolutely no trouble or unpleasantness between himself and his wife since their marriage.

They had been making their home with the Barrams since their marriage and had not arranged to keep house. Catlettsburg Tribune. Chadwick's creek is a Boyd county watercourse which empties in the Big Sandy a short distance below Savage Branch. The suicide, if such it was, occurred several miles from the Boyd-Lawrence line. The husband says he had been told by his lawyer "not to talk."

Prof. Geo. W. Chapman.

Dr. George W. Chapman, whose recent re-election for a period of four years with an increased salary, Ky., city school is additional evidence that Big Sandy beats the world.

Mr. Chapman being a native of Lawrence county is nothing more than is common, but his push and ambition have brought to him such success that Lawrence county may well be proud of him. We knew him as a farmer's son, as a laborer on the public works, as a school teacher in the public schools of this county.

After graduating from the National Normal University of Lebanon, Ohio, with the degrees of B. S. and I. S. in March 1891, he was again a Lawrence county teacher, after which he received his M. A. degree, at Trenton, (Mich.) College, and last, but not least, the degree of Doctor of Philosophy was received from the Northern Illinois College.

Besides his position in the Paris city schools he is among the ablest institute conductors of the state. XXX.

Two or Three New Wells.

A deal has been closed in the last few days for two more wells to be drilled in the Three Mile field. The locations have been selected, but we are not at liberty to give out the information just now.

No new wells have come in since our last issue, but the next week should bring the completion of at least one well.

It is reported that a deal has been practically closed to drill a well west of Louisa, and not far from town.

A Big Timber Run.

The recent timber run was a big one. The river was at a fine stage, the great dam at the Breaks of Sandy was opened, and swiftly and without accident the thousands of huge logs reached the mouth of the river. Six hundred and ninety-two rafts passed Louisa, estimated to comprise of 41,000 logs, mostly poplar, and all of the splendid quality. Besides the logs 26 tie rafts went out, each carrying 1000 railroad ties.

IMPORTANT EXTENSION.

C. & O. Considering Building Direct Connection for Lake Business.

The Chesapeake & Ohio Railway Co. contemplates building a line of 50 miles from Huntington, W. Va., across the Ohio River and northward to Wellston, Ohio, connecting there with the Hocking Valley Railroad, in which the Chesapeake & Ohio recently acquired an interest. This route would give a direct outlet for coal from the Elkhorn region in Kentucky to the great lakes at Toledo. Edwin Hawley of New York, who is now prominent in Chesapeake and Ohio affairs, says that nothing definite has yet been decided as to building of the new line. In fact, President G. W. Stevens says that the engineers are examining various routes for the desired connection, but none has been selected.

The Chesapeake and Ohio already has connection with the Hocking Valley road through the Kanawha and Michigan via Charleston, W. Va., but that is a rather roundabout route to send coal from the Eastern Kentucky fields to the lake ports, and it is possible that, instead of building from Huntington to Wellston, a line might be constructed from Huntington to Gallipolis, O., on the Ohio river, which would require the building of about only 30 miles of new line.

The building of this connecting link would be of even greater importance when the Caroline, Clinchfield and Ohio Railway completes its northward extension from Dante, Va., to Elkhorn City, connecting there with the Chesapeake and Ohio. This will provide a direct north and south route from the Great Lakes down to the Atlantic Ocean, as the Clinchfield road proposes to S. C.—Manufacturers' Record.

TWO ROBBERIES.

One in Louisa and the Other at Kise Station.

Loar & Burke and John Burgess the Victims of Burglaries. One Culprit Caught.

When the clothing store of Loar and Burke was properly opened last Saturday morning it was discovered that it had been very improperly opened some time during the previous night. A quick survey of the room showed that the burglars had carried off quite an amount of clothing and other things. The coat and trousers of one suit, two pairs of trousers and a coat of another suit, two Stetson hats, shoes, socks, suspenders and some smaller things were gone. The money drawer had been opened and its contents, amounting to between four and six dollars, were missing. The Marshal was immediately informed and hunt for the thieves began.

There was no tangible clue and it was decided to send for the flutchen blood hounds at Huntington. The dogs were telegraphed for and arrived about two p. m. They were immediately taken to the scene of the burglary, and they at once took up and followed a scent, and a big crowd followed them. The hounds took the road towards the cemetery and made a "point" or two but no game was flushed, and after a weary chase of nothing the hunt was abandoned and the dogs were sent home. On Tuesday morning Dan Pigg found a new pair of pants near his house, and investigation showed that they had been stolen from Loar and Burke. One leg was turned up at the bottom, and they had evidently been worn once, bed been found to be too long and had been thrown away.

A store tag had been torn from the pants, leaving the string tied around a waistband button. There was a circus in town Friday night, and of course this latest robbery was laid to the crowd of toughs who usually follow such shows, but later conclusions are that home talent was engaged in pulling off the affair. Louisa has this sort of "talent," sorry to say, and this bit of burglary has more than one sign pointing in that direction.

Ioscoe Childers, of the mouth of Georges Creek or thereabouts is in bad, as the slang phrase has it, and is probably in for some time. He had been working for John F. Burgess of that locality, for several months and had got the "hang" of the house and ways of its inmates. He had also learned that some of the family had money and he coveted the fure until the itching to get hold of it became too strong to be resisted. Wm. Gordon Burgess, son of Mr. and Mrs. John Burgess had cash amounting to twelve dollars, and this found its way to Childers' pocket. Miss Burgess, a daughter, had a pocket book containing eleven dollars. This she left in a paper box on a table in her room. Childers became aware of this, and straightway it went to keep company with her brother's cash. Having provided himself with funds Mr. Childers set out to see the world. He got no further than Catlettsburg. He was there overcome with the Essence of Front street and was laid away to rest. Meanwhile William Gordon Burgess had wired to Catlettsburg asking that Childers be arrested and held, following his message himself. Upon his arrival at Catlettsburg he found his man under arrest and identified him. Childers claimed that the \$9.50 found upon him was the product of the sale of his pistol. He was brought to Louisa Wednesday and arraigned on a charge of robbery. He waived an examination and was held in default of bail in the sum of \$500 for trial next August in the Lawrence Circuit Court. Some time before the robbery Childers had forged the name of Mr. John Burgess to an order on a local storekeeper for a small amount. This he had partially redeemed, which, however, does not cure the forgery.

One Year For Assault.

Judge Wilkinson, of the Circuit Court of Wayne county, sentenced Attorney J. T. Clark, formerly a member of the Cabell county bar, but later engaged in the practice of his profession at Kenova, to one year in the penitentiary. Clark was convicted at Wayne of felonious assault upon John Cornell, a young civil engineer at Kenova, in an encounter between the two at that place about a year ago. It is stated that Clark was sentenced to the penitentiary in Virginia several years ago, after being convicted of manslaughter for the shooting of a preacher at Danville, Va.

It is said that the attorneys for Clark will carry the case to the Supreme Court in an effort to secure a new trial. Clark was represented by Attorneys Tiernan and Meek, of Wayne, while John S. Marcum, of Huntington, conducted the prosecution.

Tempora Mutantur.

The people of Catlettsburg are now clamorous for a new court house or repairs for the old one. Pending the whisky election they didn't clamor a little bit for any such improvement. Verily, the times change and we change with them.

LIFE SENTENCE.

Sam Crabtree Sent Up for Lifetime from Huntington, W. Va.

We, the jury, find the defendant, Sam Crabtree, not guilty of assaulting with a deadly weapon, but find Chas. Skiba, as charged, and we further find that he has heretofore been twice sentenced and confined in the penitentiary at Moundsville, W. Va., as charged.

J. B. AKERS, Foreman.

The above verdict, returned by the jury in Criminal Court at Huntington, which heard the evidence in the case of notorious Sam Crabtree, a native Big Sandian, shortly before last midnight, sounded the knell for a life sentence for Crabtree under the habitual criminal act, unless the verdict is set aside and a new trial is granted. The jury was given the case about 11 o'clock, and a verdict of feloniously robbing was almost instantly agreed upon. The second ballot resulted in a verdict of guilty also in the charge of having been twice before a prisoner in the West Virginia penitentiary, which, together with the verdict of guilty on the robbery, made Crabtree a victim of the habitual criminal act, punishable by life imprisonment in the penitentiary.

Several months ago, during his incarceration in the Cabell county jail, Crabtree made a confession to U. S. Marshal Tyree to the robbery of the postoffice at Greenup, and the United States grand jury at Covington, returned an indictment against him on this charge.

While there is little doubt that Crabtree did rob the postoffice at Greenup, his confession was no doubt made through the belief that when he was indicted by the U. S. grand jury, the federal authorities would take him from the clutches of the West Virginia authorities, and he would escape prosecution under the habitual criminal act. This, however did not prove true, as the Federal authorities stated that they would wait until he had completed his sentence in West Virginia before they would take him into custody.

When the verdict was returned last night which meant that the accused would have to spend the rest of his life behind the walls of the Moundsville penitentiary, Crabtree did not manifest the slightest degree of nervousness, but, instead, maintained a spirit of indifference. He, on a previous occasion had stated that if he was convicted he would give them a fight in the court room immediately afterward, and a special guard was placed over him in the court room last night to prevent any outbreak.—Ashland Independent.

Five coaches packed with raftmen, went up Saturday. They were a quiet, orderly crowd.

A Great and Attractive Show.

Louisa was visited by the famous Sun Brothers' World's Progressive Shows for the third time, last Friday and despite the fact that it was a hoodoo day for the show men, the 13th day of the month and Friday, the show fared well and came out with flying colors.

This show is one of the few that visits the Big Sandy district and keeps its promise of being legitimate and clean. Nothing of an off color is ever seen about the aggregation and the performances are all of the first class.

The acts and features for this season are all new and original and many were never before offered in this section. The show is really as good and meritorious as any of the so-called "big ones."

Two young men and two clever girls presented a great tight wire act, that was gorgeously costumed and most skillfully executed, this quartette is billed as the renowned Cereve Troupe.

The wonderful acting and acrobatic elephants were another especially big feature and their marvelous "stunts" were greeted with salvos of applause at each performance. Trained animals are the salient and predominating attractions of the exhibition. The horses all look good and have every evidence of receiving fine care in the hands of their grooms and they also look as if they have missed very few meals on their travels.

There were no gamblers about and the whole day passed off most pleasantly and the local and county police officers had very little to do in the arresting line. From here the show went to Grayson where they exhibited on Saturday. The Sun Brothers Shows can count on always receiving a welcome in Louisa. They are deserving of the patronage of the amusement going public.

New C. and O. Detective.

L. Y. Johnson, C. and O. detective, who will operate principally on the Big Sandy division, had his appointment recorded. He is visiting all the county seats in the territory in which he will work for the same purpose.

AN EARNEST APPEAL

To the Citizens of Lawrence: An Old Subscriber.

Why is it that we have such a home for the county poor house? Why is it so that any one of our sisters will crawl up in a corner of an old deserted log hut and there die on some old dirty rags rather than go to the poor house? Why is it that the secret orders have homes for their dependents? Is our county poor house not a fit place? If not, why not? Yes, why not? We, whom the Lord has blessed with comfortable homes, if He should dispossess us, would one of us be proud to seek a home in the Lawrence county poor house? No, we would sooner die in the streets! Why is this so? The name poor house sounds gloomy. Why, is it not a home? Yes, and that means much. It should be made a home, not a place of drugery and horror. Why is this place, back in the county, five miles, through the mud so inconvenient? Are the people who have to find shelter in this place supposed to be able bodied, if not they don't need a farm, do they? Why bid these helpless brothers and sisters of ours in like so many hogs, to be kept for so much per head—the lowest bidder? O God forgive! Is this the plan of the Christ we worship? As genuine hospitality must flow from love for our fellow beings, what is fulfilled by its exercise, Rom. 13:10, see also Gal. 5:13, 14. O Christians let's wake up to our duty. We are fast asleep. We don't want this account to run any longer. Let's settle up now. Our nice churches are all right, but listen to the Master in Matt. 25:40. Let's build a nice home in Louisa for our brother and sister to live in comfort and a place Lawrence county might well be proud of. It (Continued on page five.)

The sick man was put aboard the Cotton Belt on a stretcher at Dallas, and until the train had made 300 mile progress the tender little wife was constantly at his side. A drunken man and pistol is a dangerous combination, Gov. It was stated to the Governor that the pistol fell out of Cook's pocket and a friend put the weapon back in Cook's pocket without Cook knowing about it. The Governor said a drunken man with a revolver would be apt to kill somebody so he did not see why he should grant clemency.

A reduction in the size of the paper money of the United States will be made if Secretary of Treasury McVeagh accepts recommendations that will be made to him within a few weeks by a committee of Treasury officials appointed to investigate this and other proposed reforms.

The object of the proposed change is to supply the country with a size of currency more convenient for handling and to save the Government \$800,000 a year in paper and engraving.

The new-sized bank note to be recommended is about three-fourths as large as the notes now in circulation. The present notes are of a size that has been the standard for generations.

An experiment of the advantage of the change has been made with the Philippine Island currency, which is engraved at the Treasury. The Philippine bank note is about three-fourths the size of the American bank note, and is extremely attractive in appearance.

On account of the smaller size, five instead of four notes can be engraved on a page of currency note paper, and this, in addition to the money of paper, means a tremendous saving.

A Mother Sent Her Son to the Store for Change

She gave him a ten-dollar bill, and told him to get one five in change—one dollar in small pieces. The merchant gave the boy a five-dollar bill, four ones, a half and two quarters. On the way home the boy lost a quarter. It cost 25 cents to get the \$10 bill changed. A checking account would have saved this trouble and loss. Ask us about the advantage of a checking account. We'll cheerfully explain.

We are authorized to announce
W. J. FIELDS,
of Carter county, as a candidate for Congress, subject to the action of the Democratic party of the Ninth District.

The Court of Appeals having decided that an insurance policy means what it says, the Big Sandy News wants to know if the agent does. It seems to us that is begging the question. Of course the policy doesn't necessarily mean what he says, and he doesn't necessarily mean what the policy says, and—and—have you seen the comet?—Cynthiana Democrat.

Representative Langley learned today that W. T. Stafford, of Johnson county, will oppose him for the Republican nomination, a fact already published in Kentucky papers. Langley said that Stafford's ambition was an "admirable one," but he rather suspected that it would not now be fulfilled. He smiled at Stafford's charges of a frame-up in the District Committee. —Washington Item.

Paintsville, Ky., May 11.—The Hon. W. T. Stafford, of this county, formerly Republican member of the lower House of the General Assembly who comes from one of the largest and most influential families of the Big Sandy Valley, has announced his candidacy for the Republican nomination for Congress in this district, to succeed the incumbent, the Hon. John W. Langley. Mr. Stafford is so far the only announced opponent of Mr. Langley.

Mr. Stafford claims that the whole plan by which Mr. Langley is to be renominated is cut and dried and cooked and primed, and that he will at least get to tell the convention what he thinks about it. Mr. Stafford is well educated and is one of the best stump speakers in the Tenth district. The Paintsville Herald, an ardent Langley supporter, says today that Mr. Stafford's name will never be presented to the convention, but that he means to disregard the action of the convention and run in the general election as an independent candidate.

Mr. Stafford claims that the convention was purposely arranged by Langley parties to meet at Mt. Sterling suddenly and peremptorily giving other aspirants a fair chance.

Concerning Stafford's candidacy the Paintsville Herald has the following:

Stafford is, as everyone seems to understand, arranging to run as an independent. Just what figure Stafford will cut in the next Congressional race should he try it as an independent is problematic. Of the several races he has made in this county he only succeeded one, having been elected a member of the Legislature. Later he tried for the same position and was defeated, his opponent carrying every precinct in the county. Last year he again tried for the Legislature but was again defeated, this time by Hon. James W. Turner. His faith may be as large as a mustard seed, but his strength would not pull down a mountain.

But above all, we do not object to Stafford being an agitator, neither do we oppose his making the race for Congress as an independent or otherwise.

The Republican Convention held at Wayne instructed for James A. Hughes, the incumbent, for Congress.

Providing the intentions of State Game Warden Vinquesney are carried out, West Virginia will soon be the best stocked game and fish state east of the Mississippi.

There is said to be no further doubt that the election contest cases which were recently decided in Judge Halbert's court in favor of the contestees are to go before the appellate court of the State for a final decision.

EVER WATCHFUL.

A Little Care Will Save Many Louisa Readers Future Trouble.

Watch the kidney secretions.

See that they have the amber hue of health.

The discharges not excessive or infrequent.

Contain no no "brick dust like" sediment.

Doan's Kidney Pills will do this for you.

They watch the kidneys and cure them when they're sick.

G. E. Pigg, of Louisa, Ky., says:

"I cannot find words strong enough to express my thanks for the benefit Doan's Kidney Pills have brought me. For a number of years I suffered from kidney complaint and was unable to get relief. The kidney secretions were profuse and highly colored and the passages were attended by a scalding pain. My back ached intensely and at times my suffering became so severe that I did not think I could endure it any longer. Doan's Kidney Pills went directly to the root of the trouble and removed every annoyance. I gladly give this remedy the praise it deserves." (Statement given January 27, 1908.)

Mr. Pigg was interviewed on June 24, 1909 and said: "During the time that has passed since I first used Doan's Kidney Pills, I have enjoyed good health and freedom from kidney complaint. I am always willing to recommend this excellent kidney remedy."

An EARNEST APPEAL.

(Continued from page one.)

will help the town as well as humanity.

Please turn to Prov. 28:27, in the Bible, is this scripture true? and Prov. 19:17. Yes, and what of the final settlement. Listen to his word in Matt. 25:34, 35.

This is a golden opportunity. If we do not love our brother whom we have seen surely we do not love God whom we have not seen; therefore we cannot honor God.

We may build palaces, but remember it was there where Christ was condemned and where he is being condemned today. Yes, our mansions and fine buildings will as truly be a witness against us and the blood of our brother also will cry against us as the blood of Abel.

"Be not deceived, God is not mocked," and facts are stubborn things. I appeal to the tax payers and people of Lawrence to help in this cause. O Christians can't you read the hand writing on the wall. There are good people all over this county who would be glad to go out into the vineyard for the master. Well, the harvest is already white, the opportunity golden. Let's place these people where we can visit them and help them, where they can go to church and have a respectable home. Let's quit singing religion and talking it but let's go to work and make somebody else happy, then we'll bear the well done at the last from the Him who said, "I go to prepare a place for you."

I will mention two of Louisa's good people among the many, who will surely come to the front, Mrs. Lizzie McClure and our County Judge Mr. Boggs.

NOTES OF THE FARM.

COLUMN OF INTERESTING NEWS THAT WILL BENEFIT FARMERS.

Creep for the Lambs.

To hasten growth, lambs must have bran, oats and maybe a very little corn in addition to their mother's milk. This extra feed may be given in a small pen or room adjacent to the general feed lot and connected with it by means of a creep or opening large enough for the lamb but not large enough for a mature sheep. The feed for the lambs must be placed in a trough covered to keep out rain in an open lot to prevent the lambs getting into it and soiling the feed. —Farmers' Home Journal.

Stoppage of the Teat.

Dr. David Roberts, Wisconsin State Veterinarian says that a very common trouble in the ordinary dairy is to find an animal with the point of the teat closed, either due to a bruise of the teat itself or to infection of the milk duct which causes a little scab to form over the point of the teat and unless this is properly handled with care and cleanliness, the infection is apt to cause a loss of the entire quarter.

The proper manner in which to handle and treat such cases is to thoroughly wash the teat in an antiseptic solution, then dip a teat plug into a healing ointment and insert it into the point of the teat, allowing same to remain from one milking to another. In this manner closure of the point of the teats can be overcome in a very simple and satisfactory way.

Never use a milking tube if it can be possibly avoided, as there is much danger of infecting the entire quarter by the use of the tube.

To Drain a Cistern

Here is a plan for draining a cistern; is by the siphon principle, and is very quick and easy when understood. It can be used in any yard that has sewerage and an outside sump sink. The way to start the flow is to take a rubber hose, fill with water, thus exhausting the air out of it; then while one person drops the lower end into the vault, another person inserts the intaking end into a full bucket of water and quickly lowers bucket and all into the cistern. The only thing else necessary is to have the outlet of the hose lower than the inlet. The flow thus started will continue until the cistern is entirely drained. I hope I have made it plain enough to understand.—Mrs. Warren Edrlington, Turner's Station, Ky., in The Epitomist.

The Problem of Drainage.

It is absolutely necessary that your country property be capable of good drainage, and it is equally necessary that it gets such drainage. This does not always demand a hillside, or even much of a slope, but for health and for tillage alike it is an absolute requisite; without health you had far better be in the city. There are locations also which become undesirable because they take the wash of neighbors' drains. The law will hardly protect you in such a case, and if it does, lawing is the last thing that you wish to engage in. I would make sure not to buy my way into a quarrel.

Involved in this drainage problem is, once more, that of soil wash. Many of our hillsides are being denuded of all valuable dirt, and fertilizers are swept away as fast as they are applied. Look out for

this, of course, in your purchasing; that is, select your property with a clear vision and a certain knowledge as to its being easily drained, and not too easily washed. In future articles this subject will come up for careful discussion. E. P. Powell, in Outing.

Pig Pasture.

Hogs now command such good prices and indications are that they will command high prices for a long time, if not indefinitely, that it pays to keep several brood sows and raise all the hogs that the farm will conveniently accommodate. Says a writer in Journal of Agriculture:

Hogs are high in price, but feeds, too are high, and are likely to remain so, hence the feed supply in growing hogs, or any other animals, is a problem which must interest all farmers. There is profit on finishing eight-cent hogs on sixty-cent corn, yet the margin of profit is not very large, unless the hogs during their earlier period were grown on some forage and cheaper feeds than grain.

Every farmer who makes much money on hogs must have a permanent sow and pig pasture and also utilize temporary pastures at different seasons for his swine. The permanent pig pasture is a necessity, and the better it is made the more clear profits there will be in growing them. On the 80-acre farm five or more acres may profitably be set aside for permanent sow and pig pasture, and this area should be divided into at least two nearly equal areas for the health of the swine and the good of the grasses grown for pasturage. The larger the number of swine kept, of course the greater the area must be used for pasture.

Not Sorry For Blunder.

"If my friends hadn't blundered in thinking I was a doomed victim of consumption, I might not be alive now," writes D. T. Sanders, of Harrodsburg, Ky., "but for years they saw every attempt to cure a lung-racking cough fail. At last I tried Dr. King's New Discovery. The effect was wonderful. It soon stopped the cough and I am now in better health than I have had for years. This wonderful life-saver is an unrivaled remedy for coughs, colds, lagrippe, asthma, croup, hemorrhages, whooping cough or weak lungs. 50c, \$1.00. Trial bottle free. Guaranteed by A. M. Hughes.

OBITUARY.

Death visited another home May the 7th, 1910, and took a precious jewel and left the home desolate and father and mother, brothers and sisters broken hearted and sad. Ula Gilbert, the five year old child of John and Kate Gilbert is dead.

Ula will be missed by all that knew her. A chair is vacant, but the Lord saw fit to remove her to that city, where there is no sickness or death. Everything was done that loving hands could do to prolong her life, but in vain. She was laid to rest in the cemetery at Grayson.

We can say God doeth all things well, and Jesus said, suffer little children and forbid them not to come unto me for of such is the kingdom of heaven.

May the father, mother, brothers, sisters, and all her relatives be sustained by the grace of God through life that when they all have passed from this they will meet Ula and rejoice together in that home where they will never part.

Dr. Robert L. Baisden, accused of the murder of Grover Waldron and Amos Hatfield, who shot and killed Doc Mounts at Lindsey, have been admitted to bond by Judge L. A. Sampelle, of the criminal court. In the Baisden case Judge Samp-

elle required unusually heavy bond, the amount being fixed at \$10,000 and Dr. Baisden was released on Monday. His sureties are W. I. Campbell, clerk of Logan county; Don Chaffin, assessor of Logan county; Thomas and Julius Baisden, also of Logan and O. R. Damron, of Wayne county.

It is understood that Attorney John S. Marcum of Huntington, has been engaged by M. H. Waldron, father of Baisden's victim, to assist the other counsel for the prosecution.

The bond of Amos Hatfield was fixed at \$5000, which he promptly furnished with G. W. Hatfield, M. Z. White and Tom Hatfield as sureties.

In the preliminary hearing Hatfield made out a strong case of self defense. Assistant Prosecutor Stafford evidently was not convinced that Mounts had been the aggressor in the encounter between the two men or that he had fired at Hatfield. The witnesses testified that they heard two shots and that when they were fired Hatfield and Mounts were not four feet apart.

The gun found by Mount's side was claimed by Hatfield as his property, he stating that he had loaned Mounts the weapon the day before.

Evidently it was the theory of the prosecution that Hatfield fired both shots and that he placed the gun near Mounts for on last Friday Mr. Stafford, accompanied by Squir Chaffin, Constable John B. Maynard and Dr. G. R. White went to Lindsey and exhumed the body.

It is stated that the examination of the physician revealed but the one wound in Mounts' body and this fact tends to strengthen the claim of self defense. In addition to the gun shot wound a bruise was found on the dead man's face which was sustained, according to the witnesses when he fell dead among some rocks.

There is something doing in Matewan, according to the reports from the council meeting held the first of the month. When the license question was taken up, some one moved that the license for the ensuing year be placed at \$25 and in spite of one or two members this was quickly carried. As the town has always gotten from \$500 to \$600 generally before, there is considerable dissatisfaction over the situation, and we understand that an effort will be made to have the council reconsider its action, which is considered a blow to the town.

Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale people lack good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach. A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Plummer's Golden Medical Discovery—the great Stomach Restorative, Liver Invigorator and Blood Cleanser.

OBITUARY

On the 10th day of May, 1910, grim, merciless death visited the home of Cornelius and Mary Hobbrooks and took from that home their dear loving daughter, Myrtle, aged 14 years and 19 days, one who had lived a holy Christian life from childhood. No doubt their home is hung with black and somber clouded curtains their vision is overcast with gloom of sorrow, and every sound that reaches their ears has in it a cadence of despair, for the one who has gone on beyond indeed the world seems empty and cheerless to them and in their hearts there is a dreary and dis-

mal aching. The only consolation that is vouchsafed them is the sweet realization of the fact that their beloved daughter is at rest. The one whom they have placed their affections upon is now in the land where the weary are at rest. Where pains are over and forever at an end, housed in the paradise of God to live forever with Him. Their consolation is that their treasure is in heaven and will never be racked with pain in this sinful world.

Weep not, dear father and mother as those that have no hope, and be faithful, for it will only be a short time until you too will cross the dark river and join with Myrtle where parting will be no more.

"1892" Pure Aluminum Ware

Will Not Rust, Crack,

Break, Scorch or Burn

Cheapest Because Best

Will Last a Lifetime

HERE, at last, is the ideal kitchen and cooking utensil—"THE WARE THAT WEARS"—

made from Pure Spun Aluminum, and guaranteed by the makers to last 25 years with average usage. "Spun" Aluminum, mind you, not cast Aluminum, which will sometimes crack and scale. Spun Aluminum Ware will never crack, peel, scale or break.

Costs a trifle more than ordinary enamel ware, but is many times cheaper in the long run, because of its wonderful durability and fuel saving. Enamel ware is iron coated with colored glass. Iron expands with heat. Colored glass does not, but chips off into the food with dangerous results to those who eat it.

That the use of enamel kitchen ware causes cancer is a view held by some eminent medical authorities. Dr. William H. Diefenbach of New York, in a paper entitled "Observations on the Etiology of Cancer," read before the Bureau of Sanitary Science and Public Health during the session of the International Homeopathic Congress at Atlantic City, discussed this subject.

According to a special dispatch to the Philadelphia North American, Dr. Diefenbach advanced the argument that chipping

of the hard-coated dishes used in preparation of meals allowed minute but dangerous particles of foreign matter to become mixed with the food, these being taken into the stomach, where the cancerous growth is caused by abrasions which they make in the walls of the organ.

"1892" Pure Aluminum Ware saves doctors' bills. It enables you to bake bread, pies, pan cakes, etc., without grease, which is the great cause of dyspepsia and indigestion. Aluminum griddles require no grease; hence are smokeless and odorless. "1892" Pure Aluminum Ware will not scorch or burn, is easily cleaned, will not rust, or corrode. Handsome in appearance. Looks like silver, but weighs only about one-fourth as much, and is light and convenient to handle.

The original and only genuine Spun Aluminum Ware is made by the Illinois Pure Aluminum Co. at Lemont, Ill. Every piece bearing their trade-mark, the Maltese Cross, and marked "1892" Pure Aluminum Ware is absolutely pure, wholesome and hygienic, and guaranteed for 25 years.

See that you get the right goods and accept no substitute.

Only a few of the "1892" Pure Aluminum Cooking Utensils are shown here. Complete line will be found at SNYDER HARDWARE CO., Louisa, Ky.

HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE.

Did you ever stop to think that it was one thing to talk about people and another thing to have people talk about you? If those of us who use our tongues a little too freely about our neighbors would stop and reflect about this matter and know the great evil that comes from too much talk and tattling, we are sure we would call a halt and gossip no more forever.

Yesterday we were asked if we ever saw a baldheaded woman. We answered "No," we never did, nor did we ever see a woman waiting around town in her shirt sleeves with a cigar in her teeth and running into every saloon she saw. We have never seen a woman go fishing with a bottle in her pocket and on the damp ground all day and come home drunk at night. Nor have we ever seen a woman yank off her coat and say she could lick any man in town. God bless her she's not built that way.

Give the young and struggling a word of encouragement now and then. You would not leave those plants in the widow boxes without water or refuse to open the shutters that the sunlight may fall upon them, but you would leave some human flower to suffer from want of appreciation or the sunlight of encouragement. There are a few hardy souls that can struggle along on stony soil—shrubs that wait for the dew and sunbeams, vines that climb without kindly training—but only a few. Usher the kind word when you can see that it is deserved.

That the churches in any community exercise a most potent influence for good is conceded by all except the most rabid or blatant infidel whose egotism and self-conceit blind his mind to the laudable value of Christianity. But to what extent are the churches valuable in this community? The Galilean teacher said to His disciples: "Ye are the light of the world." "Ye are the salt of the earth." Hence, if all His disciples are the light of the world and the salt of the earth, the logical as well as the scriptural conclusion is that they are the light of the community in which they live. These declarations, however, do not preclude the possibility of the light going out—being hid under a bushel—or the salt losing its saltiness. But certainly no reasonable or fair-minded persons would accuse the churches of being wholly composed of salted hands of hypocrites. For it matters not to what extent sin in its many forms, may pervade the ranks of any church, you find that within its membership, consecrated men and women. And it should be borne in mind that it only requires a few of the above-mentioned class to become the light of the community.

We often wonder why it is so many young men can be seen loafing upon the streets until a late hour of night. Many of them are from our best homes. The fathers of these young men, many of them at least, are numbered among our best citizens. If their own or their horse or even their favorite dog was away from home after dark they would be out on a search, but their own children can roam the town all night with apparently no effort being made to find them. The boy seems to be turned loose at a tender age to wander at will into the paths of sin and vice and then we wonder where all our tramps and worthless specimens of humanity come from. It is a regrettable fact that too many of them come from seed germinated in good homes and then sown in a careless manner upon our streets and back alleys. Reader, is your boy wasting his time upon our streets? If so had you better not, at least, look after him.

as carefully at nightfall as you would your horse and cow. We did not estimate that this evil exists to a greater extent in this community than in our sister towns, but the evil seems universal and increases in magnitude as the years roll by.

If You Think It, Say It.

If anything pleases your eye or palate, or adds to your enjoyment of life in any way, say so. It is not fair to expect anyone to work for your pleasure and then take it for granted that you are pleased, when perhaps neither words, looks or actions express anything of the kind.

It is had enough to expect grown people to understand your feelings, but in mercy to the children who give them the word of praise which their efforts to help or please you deserves.

It is not only right but good policy as well to know this. You have only to watch the face of a child when it has tried to help you; give it the word of praise or thanks which it deserves and watch the lighting up of the little face then take note of its actions and very soon you will see it is watching for an opportunity to do something else for you; and if you ask the favor how willingly the little feet and hands do the bidding. On the other hand take their efforts as a matter of course and see the face show how keeally the neglect is felt.

While human nature remains what it is, a word of appreciation will never be lost on old or young and is one of the best paying investments which can be made. Some say, "I don't care whether they like it or not," but that is all nonsense for man, woman or child; we every one of us feel our heart grow warm under merited praise, and if we get a little more of it than we deserve, which rarely happens in this world we try to deserve more next time.

Praise your wife, man for pity's sake give her a little encouragement it won't hurt her. She doesn't expect it; it will make her eyes open wider than they have for the last ten years; but it will do her good for all that and you too. There are many women today thirsting for a word of praise and encouragement.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

TORCHLIGHT

Death came as a welcome relief to Rebecca Fortner on April 30th, she was seventy years of age, was married to Aaron Fortner, when quite young, was the mother of eight children, six of whom together with her husband have preceded her to the glory land. She had been a consistent member of the Baptist church since she was fifteen years of age, had lived a Christian life, was loved and respected by all who knew her. She leaves a son, George, who was the staff of her declining years, and one daughter, Mrs. Mariah Halden of Paris, Ill., two brothers, Wm. and Thomas Cartmell, and one sister, together with a large circle of friends to mourn her death. She was buried Sunday the 1st inst. at her old home near Chapman, funeral rites being conducted by Rev. Cyrus Riffe.

A large delegation from this place attended the dedication of the I. O. O. F. Temple at Gallipoli last Tuesday, returning by the p. m. train, reported one of the greatest events in the history of this entire country.

Dr. Marcum was called to Kenova, W. Va., last Sunday by the severe illness of a little son of his brother Frank, reports say that at present writing the little fellow is improving.

Britton Compton of Meiller, with his family, is visiting his father, W. P. Compton on Rubie Fork, this week.

C. V. Bartels was in Louisa last Monday.

Wayne Cohorn of Three Mile, was over Tuesday and reports that the shooting of the O'Brien oil well last Monday was a successful venture.

Miss Parseley, sister of Sherman, was here last week visiting friends and relatives.

Another pony colt made its appearance at the Louisa Coal Co.'s barn last Saturday.

Driving the oil well on Lickcreek by the Louisa Coal Co. is progressing nicely drilling began last Saturday and nothing so far has occurred to delay.

Mrs. B. J. Caiway and little son of Three Mile were the guests of Mrs. Sherman Parseley last Tuesday.

Several of our boys who have been at Millers creek for some time returned last week for a short stay.

Mart See, son of the widow See, on Lick creek, returned home last Friday night after an absence in the army service of six years. All were delighted to see him. His last stay with the army was near Denver, Col.

W. A. and H. P. Hoyt of Busseyville were over to see us last Tuesday.

OBITUARY.

On Saturday evening, May 14, 1910, just as the sun was sinking in the golden west and all nature seemed wrapped in one beautiful sunbeam the angel of death appeared in the home of Mr. and Mrs. Gus Preston and took from them their darling baby, little Augusta, aged about one year.

Though she had been ill for several weeks past and the end was expected her death came as a great shock to family and friends. She was the idol of her father, the joy of mother, the pet of grandfather and the pride of brother and sisters.

It seems cruel for one so young and so lovely to be snatched from us, yet God saw fit in His tender mercies to call little Augusta to Him, who said, "Suffer little children to come unto me, and forbid them not, for of such is the kingdom of heaven."

We know that she is now resting in the gentle Saviour's care, where there can be no more sufferings or pain.

Weep not, dear father and mother for her, for she is beyond the vale of tears. The body was laid to rest in the beautiful spot selected by her parents where special rare can be taken of the little darling's resting place.

To the heretofore family we extend our tenderest sympathy and earnestly pray God's blessing upon them.

A Woman's Idea of Our BOYS' DEPARTMENT

"I like to come here for my boys' clothes because I can get as good and often times better variety than I can get in the city stores, and the prices are not as high."

This woman was not a flatterer, but in the course of her buying made this remark to the salesman—neither was she superstitious, for she bought thirteen boys' wash suits; which is sufficient proof; as well as proof of her opinion of these wash suits—for she had tried them last summer.

Boys' wash suits like other things are worth more if better made, better styles and fast colors; that's why these cost a little more than the ordinary poorly made suits—colors warranted fast; full cut, wide hems, perfect fitting.

H. W. Lambert was a business caller in Louisa Saturday.

Pink Eyes.

Three business houses, in Ashland, Fred Powers' Jewelry Store, Maggard's studio and art house, and Thornburg's Store, were entered Saturday night.

KENTUCKY NEIGHBORS.

Reuben Williams has been made marshal of Pikeville.

James Irwin Byrne, C. & O. yardmaster down at Russell, was run down and fatally injured by a yard engine Sunday afternoon, and died on board a special train at Ashland later on, while en route to the C. & O. Hospital, at Huntington.

Elam, who has been working for the Reese, Kitchen Lumber Co. on last Saturday got his right arm torn off between the shoulder and elbow joint. His coat sleeve caught around a shaft which drew him in such a shape as to take his arm off.—Licking Valley Courier.

John Campbell, the 19-years-old son of Thomas Campbell, a prominent citizen of Chioe, near here, was accidentally knocked from a raft some distance above Pikeville, yesterday afternoon, and sank to his death when four feet from shore. This is a sad occurrence and is deeply regretted by every one, and Mr. Campbell and family have the deepest sympathy of our people.

A heart rending tragedy occurred Saturday afternoon on Baker's Ridge ten miles East of Huntington, the gun that wasn't loaded appearing in its old role of villain. Roosevelt Jefferson, the 8 year old son of Washington Jefferson, discharged the shot gun which blew out the brains of his ten year old brother, Hobart Jefferson.

The boys were playing at their home and secure their father's shot gun which they did not believe to be loaded. Roosevelt Jefferson pointed the gun at his brother Hobart's face and pulled the trigger, the contents of the shell which was discharged in consequence, entering the right eye of the elder brother and killing him instantly.

The Tibbals Coal Company are now hoping to be able to get down to business and be spared the annoyance which has been visited on them the past three weeks or more. Jeff Ward, Jr., who practically took charge of things in "Tibbaltown," claiming to own the land in that section, has been filed away for a time at least. In county court last week he was ousted from the house he laid siege to and soon after enjoined from going upon the property of the Tibbals Company or in any way annoying it. Col. Baughor, the superintendent, says that the Tibbals Company has been greatly damaged by the affair and he hopes the matter has ended. Ward in the meantime will institute an action for the recovery of the property, so it is said, and in the event he does it will be a legal battle between brothers for the property now under lease by the Tibbals Coal Company belongs to

Beautiful Spanish Dancer Gives Praise to Pe-ru-na.

NERVOUS prostration is usually the result of a vacation which requires a continual strain on the nervous system.

In such cases it would be wise if a change of vocation could be made.

But this is not always possible and a good tonic becomes a necessity.

Peruna is a tonic that invigorates without producing a drug habit.

Peruna is not a beverage nor a medicine, but an honest, straightforward tonic that increases the appetite and encourages digestion.

There is a great demand for tonic during the depressing heat of summer, and especially in countries where hot weather is very prevalent.

Such a demand is exactly met by Peruna.

Miss Pilar Monterde Praises Peruna as a Tonic.

A letter sent to the Peruna Drug Mfg. Co., from the popular Spanish dancer, Miss Pilar Monterde, is as follows:

Teatro Principal, City of Mexico, Nov. 3, 1908.

The Peruna Drug Mfg. Co., Columbus, Ohio, U. S. A.

Gentlemen: Having used your justly celebrated remedy, "La Peruna," for some time, I have the pleasure of informing you that I consider it the best tonic I have ever used.

It is a wonderful fortifier of the nerves after exhaustion and it increases the vitality of the whole body, and in my own case has produced the most complete and permanent restoration. It is also pleasant to the taste.

I do not hesitate, therefore, to recommend this remedy to all women as the best and most pleasant tonic that they can possibly take.

Yours very truly, (Miss) P. Monterde.

the Rittenhouse Coal Company and was purchased from John C. Ward a brother to Jeff Ward. Some think Jeff Ward will take no further steps and that the trouble of the coal company is now at end.

Last Friday evening at 7:30 o'clock at the home of the bride, on Brandy Keg, Samuel Buchanan Auxler was united in marriage to Miss Annie, the pretty 20 year old daughter of Mr. and Mrs. Granville Stratton. The bride was for several years a resident of this city. She has many friends here who wish her happiness on her journey. The groom is a handsome young

gentleman, and he also has many friends in this city and at his home place, East Point, who offer hearty congratulations. The pretty ceremony was performed by Rev. J. W. Walker, of East Point, and was witnessed by only a few most intimate friends.

Mr. Auxler is a prosperous young farmer, and recently, at the death of his father, Elijah H. Auxler, became heir to a valuable tract of farming land near East Point. The Herald with all their friends wish them a long, happy and prosperous life.—Paintsville Herald.

The UNDERWOOD
Standard Typewriter

will save you time in your correspondence department, will have time in your accounting department, and at the same time, give you cleaner cut, more accurate work.

The machine that originated Visible Writing, Built-in Tabulators and Modern Bookkeeping Appliances—the machine that has led the way to every modern improvement and has caused all the "old line" machines to attempt modernizing is

"The Machine You Will Eventually Buy."
